SAYS ABOUT **YOU**

BY MICHELE BERNHARDT

Colorstrology: What Your Birthday Color Says about You, Michele Bernhardt, Quirk Books, 2005, 1594740259, 9781594740251, 432 pages. There is a world of possibility contained in each day of birth. You were born during a particular season, under a particular sun sign. You have a ruling planet and belong to a particular element—fire, earth, air, or water. Each day carries a numerological vibration that has a very specific value and meaning. All these factors shape your personality and life experiences—and when combined, create your personal birth color. Colorstrology is your guide to the personal color that reflects the real you. It offers monthly and daily personal colors, personality key words, color profiles, and compatible birthdays, along with 366 perforated swatches that allow you to take your birthday color with you into the world. Integrate your personal color into your life to help you express all that is unique and special about you, and read about colors that appeal to you to see how they can benefit your life. Colorstrology also provides valuable insight into the personalities and motivations of your friends and family—look up their monthly and daily colors to reveal their innermost characters. Or read about the color that corresponds to a special day in your life—your anniversary, graduation, or another meaningful event—to learn about how that day's color resonates with meaning..
